

BILLING CODE 6717-01-P
DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission
[Docket No. CP19-475-000]

Gulfstream Natural Gas System, L.L.C.;

Notice of Application

Take notice that on June 3, 2019, Gulfstream Natural Gas System, L.L.C. (Gulfstream), 2701 North Rocky Point Drive, Suite 1050, Tampa, Florida 33607, filed an application pursuant to section 7(b) and 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations seeking authorization for its Phase VI Expansion Project. Gulfstream states the proposed project is designed to create approximately 78,000 dekatherms per day of mainline capacity from existing points of receipt in Mississippi and Alabama to an existing point of delivery in Manatee County, Florida, all as more fully described in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCONlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Lisa A. Connolly, Director, Rates and Certificates, Gulfstream Natural Gas System, L.L.C., P.O. Box 1642, Houston, Texas 77251, by calling (713) 627-4102, by fax at (713) 627-5947, or by email lisa.connolly@enbridge.com.

Specifically, Gulfstream seeks authorization to: (i) install one 16,000 horsepower turbine driven compressor unit at its existing Compressor Station 410 located in Mobile County, Alabama; (ii) abandon in place approximately 4 miles of 36-inch-diameter pipeline in Mobile County, Alabama; (iii) construct approximately 4 miles of thicker walled 36-inch-diameter pipeline to replace the abandoned pipeline; (iv) increase the maximum allowable operating pressure of approximately 59 miles of 36-inch-diameter onshore and offshore pipeline; (v) construct metering equipment at its existing Compressor Station 420 in Manatee County, Florida; (vi) construct other related auxiliary facilities; and (vii) establish and charge initial incremental recourse rates and system fuel retainage for firm service. Gulfstream estimates the cost of the proposed project to be approximately \$155 million. Gulfstream requests that the Commission issue an order granting authorization by June 1, 2020, to allow Gulfstream to obtain a special permit for the increased pipeline pressure from the Pipeline and Hazardous Materials Safety Administration and commence construction by November 1, 2021, to meet the requested in service date of December 1, 2022.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made in the proceeding with the Commission and must provide a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by

the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16-4-001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new Natural Gas Act section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to "show good cause why the time limitation should be waived," and should provide justification by reference to factors set forth in Rule 214(d)(1) (18 CFR 385.214(d)(1)) of the Commission's Rules and Regulations.

The Commission strongly encourages electronic filings of comments, protests, and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Comment Date: 5:00 pm Eastern Time on July 8, 2019.

Dated: June 17, 2019.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
